

Role title:	Community Ambassadors
Suggested involvement	As needed basis

Role summary:

As a Community Ambassador, you will serve as a passionate ambassador for Macmillan Cancer Support Jersey within our community, professional field, or social network. You'll help raise awareness of our services, support fundraising initiatives, and build relationships that strengthen our community presence. This role is perfect for individuals who are enthusiastic about making a difference, whether through corporate engagement, politics, fundraising, education, or grassroots community involvement.

Main tasks:

- Champion the cause by representing Macmillan Cancer Support Jersey at events and within your networks.
- Raise awareness by sharing our services and story via conversations, social media, or presentations.
- Support fundraising efforts by planning or promoting activities within your area or workplace.
- Build connections to introduce potential donors, volunteers, or partners to the charity.
- Collaborate with staff and fellow advocates to share ideas and community insights.
- Attend training workshops and use our online resource hub for consistent messaging and updates.

You will be:

- Passionate about community support and cancer care

- A confident communicator with strong interpersonal skills
- Comfortable speaking to small or large groups
- Well-connected within your community or professional sector
- A team player who believes in collaboration and shared impact

Additional Information

- All advocates will receive a Welcome Pack and training resources.
- Quarterly workshops and support check-ins will be provided.
- Access to an online resource hub and communications toolkit.
- You will be supported by Macmillan Jersey's team throughout your journey.
- The role can be shaped around your availability and interests.
